**DATA OBSERVABILITY
PLATFORM**

Utilize machine learning,
monitoring and
comprehensive lineage
tracking to **identify,
prevent, and address
data quality issues
throughout your entire
data infrastructure.**

Cloud Platform

PROACTIVE CENTRALIZED MONITORING

P!NG is an innovative cloud platform designed to streamline data management by integrating information from various on-premises and cloud applications into a single, intelligent and user-friendly platform

Transform how you manage your data with P!NG

The platform for efficiency, reliability, and peace of mind.

Multi Tenant

"For the first time we have gained insights into our end-to-end processing and identified inefficiencies. We have optimized batch scheduling, reduced incidents due to failures and greatly improved stability which has improved SLA times."

Russel Clarke
FNB, Data and Analytics Head

AUTOMATED ANOMALY DETECTION

Detect unusual patterns or anomalies in your data in real-time to prevent potential issues.

WORK FLOW INTEGRATION

Integrated into our JIRA helpdesk to ensure anomalies, warnings and errors detected are logged and actioned.

DATA LINEAGE TRACKING

Trace data issues to its source quickly and immediately know the impact on business.

SYSTEM PERFORMANCE MONITORING

Continuously monitor system performance to identify and address bottlenecks, ensuring optimal operation.

DATA QUALITY MONITORING

Keep a close watch on data quality metrics to maintain high standards of data health and reliability.

OPTIMIZE, ANALYZE, AND PLAN

Dashboards designed to easily monitor your environment and drive smarter decisions.

OUTCOMES

BUSINESS CONTINUITY

Our platform ensures uninterrupted operations by proactively identifying and resolving data issues before they impact your business. This means you can **MAINTAIN SEAMLESS SERVICE DELIVERY, EVEN DURING UNEXPECTED DISRUPTIONS.**

IMPROVED EFFICIENCY

By automating data monitoring and management, Our platform reduces the time and effort required to maintain data quality. **THIS ALLOWS YOUR TEAM TO FOCUS ON MORE STRATEGIC TASKS, BOOSTING OVERALL PRODUCTIVITY.**

COMPREHENSIVE MONITORING

We provide end-to-end visibility into your data ecosystem, allowing you to track data flow, detect issues, and ensure compliance with regulatory standards. This comprehensive monitoring helps you **MAINTAIN DATA INTEGRITY AND TRUST.**

OPTIMIZED PERFORMANCE

Our platform continuously monitors and optimizes data processes, ensuring your systems run at peak performance. This results in **FASTER DATA PROCESSING AND IMPROVED SYSTEM EFFICIENCY.**

REAL-TIME ML GEN ALERTS

Our advanced ML-driven alerts notify you of any anomalies or issues in real-time, enabling swift action to mitigate potential problems. This **ENSURES YOUR DATA REMAINS ACCURATE AND RELIABLE AT ALL TIMES.**

REDUCED STAFF ATTRITION

Our platform handling the heavy lifting of data observability, your staff can work on more fulfilling and less repetitive tasks. This leads to **HIGHER JOB SATISFACTION AND LOWER TURNOVER RATES.**

ENHANCED FOCUS ON DEVELOPMENT

By automating routine data management tasks, our platform frees up your development team to concentrate on innovation and building new features. This **ACCELERATES YOUR PRODUCT DEVELOPMENT CYCLE AND DRIVES BUSINESS GROWTH.**

LET'S MAKE YOU A DATA-DRIVEN BUSINESS
